### Connect.

- 1 Plug in power cables to power on your sound bar and subwoofer.
- 2 Use the included cables to connect the surround speakers to the subwoofer.
- 3 Then use the included HDMI cable to connect to your TV.

#### Why HDMI? Highest Quality Connection.

Connect to the HDMI ARC/eARC port on your TV for the best possible sound quality.

## Connect to a Voice Assistant (VA) device.

Connect your voice assistant devices (sold separately) to the sound bar for an amplified audio experience that's always ready to respond. Please see the User Manual for more information.

### Connect to the AUX VA port

OR

### Bluetooth Connection

The sound bar will **automatically lower the volume** while watching a movie or listening to music (when a VA device is connected).

Unlock the best picture and audio quality with a VIZIO SmartCast® TV.

## Best speaker placement for my sound bar?

For the best surround sound experience, position the sound bar, subwoofer, and surround sound speakers as shown. The sound bar should be close to ear level.

If the subwoofer is too boomy or lacking impact, adjust the **Subwoofer level** with your remote control or try various placements.

## Not enough space? Try Front Surround Mode.

In rooms where ideal placement of the surround sound speakers is not practical, you can also place the sound bar, subwoofer, and surround sound speakers as shown. Front Surround Mode will utilize DTS Virtual:X to produce a virtual surround sound experience.

To use this placement, set the **Surround Sound mode (SURND)** on the remote to **FRNT**.

## How do I adjust sound settings and levels?

Using the included remote, you can easily adjust many different sound settings and levels to optimize your listening experience, including surround volume level, surround speaker balance, surround sound modes, and more.

1. Push a **setting** button.
2. Use the **Up/Down** buttons to select a specific setting/level to change.
3. Then use the **Left/Right** buttons to adjust each setting.
